

Lewis Shepherd is an executive in Deloitte Consulting's leading Federal Practice, specializing in Mission Analytics to enable strategic insight for government leaders and agencies across intelligence, DoD, national security and civilian sectors. Deloitte Mission Analytics uses an innovation portfolio of new digital capabilities, predictive analytics, large-scale simulation, and other advanced technologies from partners, startups, and internal R&D

Shepherd has a senior-executive background in the public and private sectors. Prior to Deloitte he spent seven years as the Director and CTO of the Microsoft Institute for Advanced Technology in

Governments, a global practice providing R&D innovations for enterprise-scale mission problems, leading a team working diverse projects in artificial intelligence, big data, cloud computing, cyber defense, and holographic computing. From 2003-2007 Shepherd drove Intelligence Community innovation as the flag-rank senior civilian ("Senior Technology Officer") leading Requirements and Research at the Defense Intelligence Agency. His DIA team of technologists built multiple IC-wide capabilities, including the well-known systems Intellipedia, the IC Data Layer, and A-Space.

As an Adjunct Professor at George Mason University, Shepherd currently teaches the Intelligence Community's internal Ph.D.-level course on "Big Data Analytics and Architectures" for intelligence professionals, and has served on the Defense Science Board's study on information operations and hybrid warfare. He was appointed in 2014 to Georgetown University's Technology Management Advisory Council, and currently serves on several government advisory boards in Washington DC, focusing on advanced technologies and cyber security, and has traveled internationally for the U.S. State Department as a technology envoy.

Lewis Shepherd has degrees from Stanford University (where he was a Rockefeller Graduate Fellow), the University of Virginia, and the Université Libre de Bruxelles (Belgium). He has also been a guest-lecturer at the Stanford Graduate School of Business, the UVA McIntire School of Commerce, Princeton University, Georgetown University, George Mason University, and many international universities.
